

**Optional Club of the Year Determination Method**

- |  |                   |
|--|-------------------|
| 1 Determine number of regional qualifiers at each level ( 6-10 )                         | <b>Multiplier</b> |
| 2 Arrange qualifiers from each level in numerical rank by AA score ( highest to Lowest ) | L6 x 1.00         |
| 3 Use highest number of qualifiers as base number for L9 and L10 ( 45 L8s for 2024)      | L7 x 1.25         |
| 4 Assign raw points in descending order from 1st place to last                           | L8 x 1.50         |
| 5 Use multiplier on the right to determine final points for each level                   | L9 x 1.75         |
| 6 Combine lists of each level  | L10 x 2.00        |
| 7 Determine each clubs grand total   |                   |
| 8 Sort clubs highest to lowest   |                   |
